GERIATRIC CARE

A specialized centre designed to cater to the unique healthcare needs of the elderly. Our clinic is committed to providing comprehensive and compassionate services that address the physical, mental, and emotional well-being of our senior community members.

From preventive care and chronic disease management to geriatric assessments and personalized care plans, we aim to enhance the quality of life for our elderly patients.

Treat health issues in the elderly population, including chronic diseases, cognitive decline, and functional limitations.

A holistic approach beyond treating specific ailments, focusing on overall well-being and quality of life .

Collaborate with other specialists, nurses, therapists, and caregivers, to create a cohesive and effective care plan.
